Thanks a lot, Phil. I asked the state reps to gather any info we may be aware of not on these lists, especially since we broke out into groups in the PM and those discussions may have triggered other data source ideas.

Subject: Re: REFERENCES FOR WATERSHED ASSESSMENT

Hi Sharmon,
Attached are a couple of lists of references. As you can see Gunnar's list is more of a narrative of data sources. I have sent out a request to all of our team members and have not heard back from everyone. I'll send their lists as they come in. These are raw lists of the papers and other sources we have, they may not all be included in the final document.

Thanks for the fish data source.

Phil
